diagnose and classify the ability level of communication daily living skills and socialization of persons with intellectual and developmental disabilities and other disorders such as autism asperger syndrome and developmental delays

offers a thoroughly revised comprehensive a to z compilation of authoritative information on the education of those with special needs

psychologists offer an increasing variety of services to the public among these services psychological assessment of personality and behavior continues to be a central activity one main reason is that other mental health professionals often do not possess a high level of competence in this area and when dealing with children and adolescents psychological assessment seems to take on an even greater role therefore it follows that comprehensive graduate level instruction in assessment should be a high priority for educators of psychologists who will work with these youth this textbook is organized into three sections consistent with the authors approach to teaching part i provides students with the psychological knowledge base necessary for modern assessment practice including historical perspectives measurement science child psychopathology ethical legal and cultural issues and the basics of beginning the assessment process part ii gives students a broad review of the specific assessment methods used by psychologists accompanied by specific advice regarding the usage and strengths and weaknesses of each method in part iii we help students perform some of the most sophisticated of assessment practices integrating and communicating assessment results and infusing assessment practice with knowledge of child development and psychopathology to assess some of the most common types of behavioral and emotional disorders in youth a text focusing on assessment practices must be updated every four to six years to keep pace with advances in test development for example several of the major tests reviewed in the text such as the behavioral assessment system for children and the child behavior checklist have undergone major revisions since the publication of the last edition making the current content outdated further another major test the conners rating scales is undergoing substantial revisions that should be completed before publication of the next edition finally the evidence for the validity of the tests and the recommendations for their appropriate use evolve as research accumulates and requires frequent updating to remain current for example there was a special issue of the journal of clinical child and adolescent psychology published focusing on evidenced based assessment of the major forms of childhood psychopathology that will need to be integrated into the chapters in part 3 this is an important trend in the field that should influence the marketing of the book that is there are several initiatives being started in all of the

major areas of applied psychology e g school clinical and counseling to promote evidenced based assessment practices these initiatives have all emphasized the need to enhance the training of graduate students in this approach to assessment this has been the orientation of this textbook from its first edition that is clinical assessment of child and adolescent personality and behavior has focused on using research to guide all recommendations for practice the ability of the textbook to meet this training need should be an important focus of marketing the book to training programs across all areas of applied psychology

autism spectrum disorder is one of the most researched and popular topics in the fields of psychology psychiatry and special education in the last 30 years the amount of new information on assessment and treatment has been astounding the field has moved from a point where many considered the condition untreatable to the current position that it may be curable in some cases and that all persons with this condition can benefit from treatment intervening with school age children continues to be a major focus of assessment or intervention however expanding the ages of those receiving more attention from younger children to older adults is becoming more prevalent the consensus is that intensive treatment at the earliest recognized age is critical and that many adults evince symptoms of the disorder and warrant care the field is full of many proposed treatments many of which offer promise but no data thus a book on evidence based assessments and interventions across the life span should be of value in helping to sort out the more credible interventions as defined by the research and what methods have the best support given the popularity of the topic and the vast array of potential assessments and treatments available this volume will be aimed at delineating what the researchers have shown has the best evidence to support particular methods international review of research in mental retardation is now available online at sciencedirect full text online of volumes 23 onwards elsevier book series on sciencedirect gives multiple users throughout an institution simultaneous online access to an important complement to primary research digital delivery ensures users reliable 24 hour access to the latest peer reviewed content the elsevier book series are compiled and written by the most highly regarded authors in their fields and are selected from across the globe using elsevier s extensive researcher network for more information about the elsevier book series on sciencedirect program please visit info.sciencedirect.com/bookseries
